PROFESSIONAL SUMMARY

Full Stack Developer and Backend Engineer with 3+ years scaling web and mobile applications across healthcare, service, multimedia, e-commerce, and e-governance. Backend Lead at Pupa Clic — grew platform to 40,000+ active users via REST API optimization, Node.js backend architecture, and CRM engineering. Proficient in MERN stack, React Native, TypeScript, Laravel, and Expo. Experienced in CI/CD pipelines, system design, code reviews, and Agile delivery. Hands-on with AI-assisted (vibe-coded) development using Gemini, Replit, and Google Stitch.

WORK EXPERIENCE

Backend Lead | Full Stack Developer · Pupa Clic · Chennai

Sept 2022 – Present

- Scaled Aaiwa service platform from 30,000 to 40,000+ active users by optimizing REST APIs (~40% faster response), refactoring inherited codebase, and eliminating critical performance bottlenecks.
- Built a configurable Perfex CRM admin panel with spin-wheel notifications (OneSignal), slot-based coupons, and template-level homepage control — reducing ops team workload by ~50%.
- Maintained a React Native multimedia app for 12+ months with 99.5% crash-free sessions across iOS and Android through optimized file handling and performance tuning.
- Developed a MERN hospital–doctor consultation system handling 5,000+ monthly appointments with structured admin workflows and performance-optimized APIs.
- Delivered a Philippines government service mobile app (Cordova) for 2,000+ public users, focused on accessibility, reliability, and secure REST API integration.
- Contributed to React-based tenant onboarding app and CI/CD pipelines (GitHub Actions); built MERN office party game platform with live scoring and real-time leaderboards.
- Supported multi-platform e-commerce deployments; built AI-powered video generator and SaaS review collection platform using modular, reusable architecture.

PROJECTS

MERN Stack

- Hospital & Doctor Consultation Platform — Scalable MERN system with appointment scheduling, doctor–patient consultation flows, and performance-optimized backend APIs for 5,000+ monthly appointments.
- Mentoring Management System — Migrated legacy PHP academic system to MERN; improved page load speed by ~60% with RESTful APIs and a responsive React.js frontend.
- Office Party Fun Game Platform — Multi-game corporate web platform with live score tracking, real-time participation, and leaderboards for team events.

React Native · Expo · Mobile

- Multimedia Mobile App (React Native · Laravel · Stripe) — Cross-platform content app with optimized file handling, 99.5% crash-free sessions, and integrated Stripe subscription flows.
- Joint Fn — Joint Finance App (Expo · expo-sqlite · Gemini · Google Stitch · Replit) — AI vibe-coded gamified finance tracker with XP-based expense tracking, forecasting logic, and a Google Stitch-designed UI. Built using Replit for scaffolding and Gemini for code generation.

Laravel · PHP · CRM

- Aaiwa Service Platform (Express · Perfex CRM · Dibsby · Firebase) — Backend-led service app for 40,000+ users with CRM admin control, spin-wheel campaigns, and slot-based coupon system.
- Sling – Bulk Recharge Platform (HTML · CSS · jQuery · Laravel) — Three-domain enterprise platform for bulk employee mobile recharges with CSV upload, REST API integration, and status reporting.

Frontend · Vue.js · Cordova

- Philippines Government Service App (Cordova · JavaScript · Laravel) — Accessible, compliant public-facing mobile app for government services with secure REST API integration.
- Tippen Ads Publishing Platform (Vue.js · Core PHP · REST API) — Instagram-style vertical video feed for publishing short-form ad content with smooth playback and structured content delivery.

EDUCATION

B.Sc. Computer Science · St. Joseph's College of Arts & Science, Cuddalore
Gold Medalist — Computer Science Department

2019 - 2022

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate (Coursera / Meta)
- The Complete Node.js Developer Course — Udemy
- React Native – The Practical Guide — Udemy

TECHNICAL SKILLS

Backend: Node.js (Express), Laravel, REST APIs, Perfex CRM (PHP)

Frontend: React.js, Next.js, Angular, Vue.js, TypeScript, Tailwind CSS, Material UI, jQuery

Mobile: React Native (Expo & CLI), Cordova, Native Android (Java), iOS (Swift), TypeScript

Databases: MySQL, MongoDB, PostgreSQL, SQLite (expo-sqlite)

Integrations: Stripe, Razorpay, DIBSY, Firebase, Google Maps API, OneSignal, SendGrid, Infobip, Branch.io, AWS SES

Dev Tools: Git, Postman, Replit, PowerShell, Adobe Photoshop

AI: AI-assisted development using Gemini, Copilot, and ChatGPT

Methodologies: Agile, Scrum, CI/CD, REST Architecture, System Design

AWARDS

- Best Explorer Award — Pupa Clic (2024)
- Gold Medalist — Computer Science Department, St. Joseph's College
- Second Place — Cyber Security Poster Presentation, Inter-College Event
